教育背景

澳大利亞國立大學	資訊科技學士	2018.02 - 2022.06
主修課程: 機器學習、數據挖掘與視覺化、軟件工程、人機互動		

工作經歷

香港互聯立方有限公司	數字解決方案工程師	2025.08 - 至今
AIoT 方案現場交付與驗收		
- 負責 20+項建築科技類 IoT 整體項目落地工作，覆蓋前期現場勘測評估、現場端側硬體設備部署上線、系統整體聯動調試、客戶 UAT 驗證測試以及項目交付後常態化運維管理全流程，依照合約 SLA 服務標準完成各階段閉環交付，保障各項目標穩定上線運行。 - 負責統籌管理 10 餘類物聯網終端設備部署調試工作，涵蓋 AI 視覺攝像機、車載智能終端、人員穿戴式感測設備等多類硬體；針對工地、建築現場複雜弱電佈線環境，解決資料同步延遲、網路抖動、設備離線等常見痛點，提升現場設備整體在線穩定率。 - 擔任項目核心技術對接窗口，常態對接第三方技術顧問、總承建單位與硬體軟體供應商，協調多方資源推進項目節點；面對現場突發的軟硬體鏈路故障、系統異常問題，快速完成根因定位，調整執行方案，降低停工影響時長。 - 導入多款生成式 AI 工具協助部門流程優化，重新梳理搭建標準化 SOP 文件與整套技術檔案管理體系，實現項目知識庫的自動化沉澱，大幅縮減交付驗收報告、現場運維手冊的撰寫週期，提升團隊文檔編製整體效率。		

匯研顧問有限公司	項目協調員（軟件交付）	2025.03 - 2025.07
敏捷交付與進度管控		
- 全流程統籌醫療診所 SaaS 管理系統的研發落地與交付工作，主持各輪 Sprint 計劃制定、任務拆解、日常進度追蹤與站會管理，協調前端、後端、測試團隊資源，保障多輪迭代版本均可依照計劃節點準時交付上線。 - 面對醫療門診收費、病患管理、藥品庫存等場景的業務需求，深度梳理臨床與營運場景痛點，將模糊需求拆解為標準化功能規格文件；持續管理各方預期，針對技術瓶頸輸出可行的替代實現方案，降低需求變更帶來的項目風險。 - 主導統籌系統集成測試、功能驗證及客戶 UAT 全流程驗收工作，搭建標準化缺陷登記、派發、回歸閉環追蹤機制，對照醫療行業數據隱私規範完成校驗，保障系統符合行業合規要求，平穩完成多個版本正式上線。		

伽瑪有限公司	IT 項目專員	2023.05 - 2024.07
寵物在線醫療平台重構：		
- 接手因客戶需求及產品定位調整、原團隊離職而暫停開發的寵物在線醫療平台；梳理現有 Figma 設計稿、部分程式碼及歷史資料，重新訪談客戶及相關人員，並根據更新後的 Business Proposal 確認產品方向與功能優先級。 - 負責產品需求及方案重構，圍繞在線問診、寵物資料管理及社區等核心功能，輸出新版 BRD、業務流程圖及 UI 原型；持續與客戶及技術團隊確認需求範圍、技術可行性與開發安排。 - 重新評估並實現早期未能落地的即時傳譯功能，並協調技術團隊完成核心功能 Demo；同時引入新工作流提升異地團隊的溝通效率。		

珠海金山世遊科技有限公司	產品助理實習生	2022.05 - 2022.11
需求文檔與測試閉環		
- 協助完成海外移動遊戲產品的競品拆解、用戶行為數據蒐集與場景調研，對標多款同類出海產品整理功能差異、營運機制與用戶反饋痛點，輸出多份結構化調研分析報告，為產品反覆運算提供數據支撐。 - 依照產品規範撰寫標準化 PRD 需求文檔，清晰定義功能邏輯、交互規則與異常場景；協同研發、測試團隊跟進版本測試，收集遊戲內玩家反饋並完成分類整理，推動多項核心體驗功能迭代優化。		

技能

- 編程與 AI 工具: Python、SQL、YOLO、OpenCV、MediaPipe、生成式 AI 工作流構建。 - IoT 與系統集成: 多設備 IoT 架構部署、軟硬件聯調、現場系統驗收、全系統故障排查、弱電智能化實施。 - 項目與產品管理: 需求工程、業務流程重構、UAT 用戶驗收測試、敏捷開發管理模式（Scrum）、SOP 標準化。

Education

Australian National University **BEng in Information Technology** **Feb 2018-Jun 2022**
Courses: Machine Learning, Data Mining and Visualisation, Software Engineering, Human-Computer Interaction.

Work Experience

isBIM Limited **Digital Solution Engineer** **Aug 2025-Present**
AIoT Field Deployment & Acceptance

- Directed the end-to-end delivery of 20+ ConTech IoT projects, covering on-site survey, edge device deployment, system integration, UAT, and post-deployment maintenance, ensuring 100% SLA compliance.
- Orchestrated the on-site installation and protocol integration of 10+ heterogeneous IoT devices (AI vision cameras, vehicle terminals, wearables), resolving data synchronization and network latency issues in complex weak-current environments.
- Acted as the primary technical liaison among clients, consultants, main contractors, and vendors; rapidly diagnosed hardware/software link failures on-site and dynamically adjusted implementation strategies.
- Pioneered the adoption of Generative AI tools to restructure departmental SOPs and technical documentation, automating knowledge retention and significantly improving the efficiency of delivery reports and O&M manuals.

Questwork Consulting Company **Project Coordinator (Software Delivery)** **Mar 2025-Jul 2025**
Agile Delivery & Progress Control

- Coordinated the R&D delivery of a medical clinic SaaS system, facilitating Sprint planning and progress tracking to ensure cross-functional teams met project milestones.
- Translated ambiguous clinical requirements into standardized functional specifications; effectively managed client expectations by articulating technical limitations and proposing viable alternatives.
- Led functional testing and UAT phases, established robust defect-tracking mechanisms, and ensured the compliant and stable go-live of the medical system.

K Compact Company Limited **IT Project Officer** **May 2023-Jul 2024**
Stalled Project Revival & Activation

- Spearheaded the revival of a core product project by auditing historical debts, redefining product specifications, and successfully realigning the project scope with evolving client business goals.
- Translated complex business logic into clear process flows and high-fidelity prototypes, bridging the communication gap between business stakeholders and engineering teams.
- Established cross-functional project tracking mechanisms, coordinated development, testing, and implementation phases, and managed the client feedback loop to ensure iterative product enhancements.

Kingame Corporation Limited **Product Assistant Intern** **May 2022-Nov2022**
Requirement Documentation & Testing Loop

- Conducted competitive analysis and user behavior research for overseas mobile products, delivering structured reports to support data-driven product iterations.
- Authored standardized Product Requirement Documents (PRDs), coordinated with development and QA teams to track functional testing, and drove core feature optimization through user feedback loops.

Skills

- Programming & AI Tools:** Python, SQL, YOLO, OpenCV, MediaPipe, Generative AI Workflow Automation.
- IoT & System Integration:** Multi-device IoT Architecture Deployment, Hardware/Software Co-debugging, On-site Commissioning, System-level Troubleshooting, Weak-current Intelligent Implementation.
- Project & Product Management:** Requirement Engineering, Business Process Reengineering, UAT, Agile/Scrum, SOP Standardization, PRD Authoring.
